Professional Experience

Front end Developer at Purple Agency   March 2013 – Present

Front end Developer at Webexpectations   September 2012 – March 2013

- Worked on a variety of projects building the frontend from Photoshop templates, making changes to existing websites and creating standalone pages for multivariate testing.
- Experience gained from working with a variety of CMS's including Joomla, Wordpress and Magento.
- Working with development processes including Git for version control.
- Acquired basic experience with responsive web development and mobile optimised websites and a basic knowledge foundation on retina display development.
- Developed several HTML Emails and HTML email signatures.
- Clients I have done work for include: Mizuno Golf, Loreal, MayfairSuites, Carte Blanche Greetings, Premium Tours, Ragus, Bissell, PetrolHeads, Bucks&Berks and Mobility Scooters Plus. For more information on what I did you can look at my online portfolio.

Night Receptionist at Premier Inn   September 2009 – September 2012

Junior Web Developer at SuperReal GmbH, Germany   April 2007 – October 2007

- Worked on Individual Projects from Graphical design to upload.
- Worked in a team with Backend Developers and Graphic Designers.
- Updated existing websites and XML templates.
- Learned Photoshop, improved on HTML and CSS.
- Ensured websites were identical across browsers.

- Was flexible to work overtime in order to quickly meet deadlines.

Education

Web Development with Business BSc (Hons), Kingston University   2009 – 2012

- Learned the foundations to several previously self-taught languages.
- Improved and learnt several new languages.
- Worked in a lot of groups often taking on the role of organiser within it.
- Always ensured to hand in every coursework before the deadline.
- Helped peers with their work, and vice versa learned a lot from others.
- Thoroughly enjoyed working on the Single Semester Final Year Project and was proud of the end result, which can be viewed on http://pixxy.cathrinwill.com/
